

There comes a time when the obvious is so ridiculously so, that it strains the imagination to conceive of any intelligent, rational person thinking otherwise. Current events already demonstrate that the media has a stranglehold on people's perceptions, and has shown unprofessional and irresponsible behavior in presenting press release propaganda coming from the offices of the US Department of Global Communications (amongst other administration bedfellows) as what is supposed to be factual news. Please don't create an even stronger nation-state media mouthpiece. Stop media deregulation and go even further to help US citizens (your REAL constituency!) receive fair and accurate information about what is REALLY going on in our nation and the world. Many thanks!
